---

Dear all,

Happy new year to you all and welcome to the first e bulletin for safetxt.

The plan will be to send out monthly updates and eventually when the trial is fully staffed, regular newsletters will be sent out to update everyone on trial developments and recruitment.

We look forward to working with you and meeting with you in the coming months.

For those of you who do not know me, I am Rebecca Matthews, Assistant Trial Manager here at LSHTM ([rebecca.matthews@lshtm.ac.uk](mailto:rebecca.matthews@lshtm.ac.uk)). I am part of an accredited clinical trials unit who will be responsible for the coordination of the trial as a whole and will be working closely with Cari Free (CI for safetxt)

The last couple of months have been very productive and the following has been achieved:

- Full ethics approval
- Development of the randomisation system
- Development of the data collection systems
- Draft logo which will be piloted in focus groups
- Contact made with 22 trusts throughout England

We are waiting on R&D approval and for local contracts to be drafted. As soon as we can, I will start assisting with applying for local approvals.

If you have any questions or if there is anyone else that you think needs to be added to this mailing list, please do not hesitate to contact me.

Best wishes

Rebecca
